## Artist Statement

BIOGRAPHY - Fabrizio Bellanca born in Rome in 1968. He attended art school. The first approach to art took place in 1989 with metropolitan graffiti. His works range from figurative to abstract, in a continuous search for new techniques and forms of expression.

In 2004, Bellanca discovered steel in plates engraving them on Dremel, creating an effect similar to a pencil. The subjects are urban landscapes. The artist until today operates on steel and aluminum with printing colors and colors for glass and Letraset.

Fabrizio Bellanca lives and works in Como.
